

On-site Activities

SMTA South China Conference 2012

Organizers:  

August 27~30 (various times)

Shenzhen Convention & Exhibition Center

- The SMTA South China Conference 2012 will run concurrent to NEPCON South China.
- Top experts from all over the world will publish papers on electronics assembly, manufacturing, industry, technology roadmaps, key commercial issues, emerging technologies, practical skills development and lead-free liability.

Schedule

SMTA Hong Kong Chapter Annual Golf Tournament

August 25, 08:00~17:00
Yin Li Foreign Investors' Golf Club, Qingxi, Dongguan

Technology Workshop One, Two, Three

August 27, 09:00~17:00 Meeting Rooms 314 & 316

Technology Conference One, Two

August 28, 10:30~15:25 Meeting Rooms 314 & 316

Technology Conference Three

August 29, 10:00~15:25 Meeting Room 316

Vendor Conference

August 28~29, 10:30~15:30, on-site at NEPCON
August 30, 10:30~12:30, on-site at NEPCON

SMT Engineer Certification Course

August 28~30, 09:00~17:00 Meeting Room 608A

SMTA Hong Kong Annual Breakfast Reception

August 29, 07:30~10:00
Banquet Hall, 3F, Ritz-Carlton Shenzhen

Technology / Vendor Conference Themes

- Environment Protection Processes
- Advanced Processes
- Focus on New Technologies

SMT Engineer Certification

The SMT Engineer Certification program is a three-day SMT process reflow workshop. It is not an entry-level program. Basic algebra will be used in the workshop and for the subsequent examination, during which candidates may use computers. Successful course participants will receive the highly regarded SMTA Certification in SMT Processes.

For inquiries about, or to register for, the program, please email peggy@smta.org

On-Site Activities

Electrostatic Prevention Technology Forum

Hosted by:  Supported by: 

August 28, 10:30~15:30

NEPCON Theater (Hall 1)

Analyzing The Difference In Standardization Management Between China And Other Countries

General Specification of Electronics Manufacturing and Application System Antistatic Inspection (SJ-T10694-2006)

EPA Technical Requirements (JB3007-2009)

Technological Analysis of Ionizing Static Eliminators

EDN Automotive Electronics Forum 2012

Hosted by:  Supported by: 

August 29, 09:30~16:30

NEPCON Theater (Hall 1)

EDN China will again team up with NEPCON to host the 2012 Automotive Electronics Forum. Here, semiconductor and component suppliers will discuss advancements in automotive electronics. Speakers from leading IC and components vendors, like Fairchild Semiconductor, Fujitsu Electronics, Freescale, Lionco Corporation, CSR, Texas Instruments and more, will talk about the latest technologies, products and solutions in automotive electronics.

On-site Activities

Full Credit Electronic Component Purchasing Meeting

August 29, 13:30~16:30

Technology Exchange Area (Hall 2)

This meeting, to be held by cnokcn.com, Shenzhen Electronics Chamber of Commerce, and a wireless technology company, will provide a free platform for buyers and sellers to negotiate, exchange ideas and conclude deals.

All buyers have the chance to win prizes that include flat panel computers.

SMTe 2012 Anniversary and 10th Member Gathering

August 29, 09:00~16:00

Peony Hall, Shenzhen Convention & Exhibition Center

Shenzhen TopTouch Consultants will team up with Reed Exhibitions and CCPIT Electronics & Information Industry Sub-Council (CCPITECC) for the SMTe Anniversary and 10th Member Gathering. A vocational training event for China's electronics industry will also be launched at the event.

NEPCON Fans Club to Reward Visitors On-Site

QQ, Sina Weibo, Get NEPCON points to win fantastic prizes!

The NEPCON Fans Club will use the QQ and Sina Weibo social media channels to connect with participants and attract new fans. Each show participant who uses these online tools will get a free souvenir.

On-Site Activities

SMTe Senior Talent Gathering, School & Enterprise Matchmaking Event

August 30, 09:30~15:30

NEPCON Theater (Hall 1)

Reed Exhibitions will team up with CCPITECC and Shenzhen TopTouch for an activity that will bring together the top industry talents; build a bridge between enterprises and foster communication via an open channel.

Topics covered will include:

- Release demands for technical talents
- Case studies on SMT talents' self-image and skills improvement
- School and enterprise matchmaking event on vocational education training of Chinese electronics industry.

Other on-site displays will include:

- Review of 26-year history of SMT technology in China
- Outlook for future trends
- Review of 22-year history of NEPCON in China
- A look back at 10 years of TopTouch.

Engineer Salon and SMT Home Member Gathering

August 30, 09:30~12:00

Technology Exchange Area (Hall 2)

Topic: How To Use The New Version Of SMT Home

Reed Exhibitions and CCPITECC will invite you to meet the Moderator, and members of SMT Home at NEPCON South China. SMT Home members can pre-register. To sign up in advance, visit the SMT Home website, the SMT industry's biggest forum with 450,000 active members!

Aug 30, 09:30~16:30

Bringing Together Top Electronics Manufacturing Brands

Driving Electronics Manufacturing, Highlighting Industry Development Trends

NEPCON South China is the ideal platform on which to source new suppliers, collect market information and learn about the latest technologies.

Bringing Together Top Electronics Manufacturing Brands

38,000 sqm floor area; more than 500 exhibitors from 22 countries and regions; over 1,000 pieces of electronics manufacturing equipment, test & measurement products and components on display.

Featuring the Most Efficient Solutions for the Entire Electronics Manufacturing Chain

Apart from surface mount technology, NEPCON South China will also show new innovations in test & measurement, electronics manufacturing automation, soldering, ESD, tools & robots, machine vision and more!

Keep Pace with Top Market Trends, Source Fresh Commercial Opportunities

- Apart from traditionally popular sectors like home appliances, notebooks and communication electronics, new segments like automotive electronics, medical electronics and LED will also be exhibited.
- Well-established exhibitors will display LED equipment and technologies.
- The Electrostatic Discharge Pavilion will debut together with the China ESD Summit Forum;
- The Electronics Manufacturing Automation Pavilion will showcase the application of the most advanced industrial automation technologies and products in electronics manufacturing.

See the Launches of New Products and Technologies First Hand!

American Tec, Assembléon, Omron, KIC, SONY, Nordson, Zestron are among numerous industry giants who will launch new products and updated technologies at this year's show.

An Excellent Platform for Practitioners to Share Best Practice

Training, certified courses and engaging on-site activities will run at NEPCON South China 2012. 28,000 key members of the electronics manufacturing trade will be on-site to share industry best practice.

Featuring the Most Efficient Solutions for the Entire Electronics Manufacturing Chain

Keep Pace with Top Market Trends, Source Fresh Commercial Opportunities

See the Launches of New Products and Technologies First Hand!

An Excellent Platform for Practitioners to Share Best Practice

NEPCON South China

One of the largest and longest standing trade and sourcing platforms for South China's electronics manufacturing industry. The 3-day event is ideal for electronics manufacturers and sub-contractors to source potential suppliers; collect market information and learn about new technologies.

Concurrently Held Events

ATE China 2012

The show demonstrates global advanced electronics assembly and packaging equipment, including assembly tools, robots, conveyor equipment and ESD to provide electronics manufacturers with the right technological solutions. It also efficiently helps participants seek suppliers who can enhance their competitiveness.

IMT 2012

This event will bring together numerous leading global suppliers of metal machining equipment and related products. Thanks to the unique industrial structure of South China, the show will attract visitors from a wide range of sectors, including automotive, motorcycles, entire vehicles and parts manufacturing, automobile molds, medical devices and electronics manufacturing. The International Federation of Automotive Engineering - Asia Congress will be collocated with this event to offer a world-class vertical application industry communication and trade platform for the metal machining sector.

Getting to the Exhibition Venue

- From Hong Kong: via Shennan Avenue, Binhai Avenue and Western Shenzhen Port
- From the airport or railway station: only 30 minutes by Metro Line 1 (disembark at Exhibition Center Station).
- The visitor entrance is at 3 Fuhua Road.

Visitor Pre-Registration

Pre-registration is a value-added service. By signing up early, you:

- Receive your electronic badge two weeks prior to the show. This will allow you to bypass on-site registration.
- Get a free gift from the Gift Exchange Area on-site.
- Get a free CD of the show directory.
- Receive updates, via our e-newsletter, on the latest industry and market information.
- Have the chance to win a free conference ticket worth RMB 600.

How to Pre-Register

- Online: http://www.nepconsouthchina.com/en/Visitors/Pre_Registration/
- By fax: Send your completed pre-registration form to +86 10 8518 8016
- By phone: Call +400 650 5611 (from within China) or +86 10 5763 1818 (from outside of China).
